

**Your Flexible Partner for Business Systems**

**Established and trusted Unit4 partner with more than 15 years' experience upgrading and implementing Unit4 products. G7 has grown into one of the largest and most trusted of Unit4 partners and are proud of our long-standing expertise and end-to-end delivery with a flexible approach.**

### Resource availability

G7 has a large team of Project Managers and Consultants. We are proud to say that every one of our staff has joined the team by way of a personal recommendation and endorsement. In short, they're the best in the business!

### You'll be surprised how well you know G7

All of the G7 team are either from U4BW customer sites or Unit4; names you will know, trust and recognise.

### G7 Application Managed Service

We believe we offer a different service to other Unit4 partners. Our dedicated Application Managed Service team, based out of Portishead UK, has 8 personnel dedicated to the U4BW product. These people are office based and do not go on the road offering consultancy. This provides our clients with consistency of personnel and people they know and trust.

The Application Managed Service can take the pressure off your in-house team, as we work alongside you and your internal support desk – ideal for sites where the internal team is struggling with the workload or the opposite, where your systems administrator isn't fully utilised. Another ideal scenario is where your internal team get bogged down with business as usual calls, allowing no time for development.

Another area this service can be used for is remote consultancy; consultancy style help, delivered in a support style service. This means you don't have to save up all your issues for a day's on site consultancy, you can call the helpdesk when the issue arises. A consultant usually specialises in one functional area only whereas with the Application Managed Service, you have access to many different people and knowledge sets.

U4 Partner since 2001

Application Managed Service with 8 dedicated to U4BW

### Implementations and upgrades

G7 has many years of experience of implementing U4BW products and can assist you through each stage of the project. Each of our Consultants is capable of running design workshops and advising on good practice in your sector.

G7 has carried out many upgrades over the years and can assist in all versions. G7 offers a unique upgrade package, combining on-site consultancy and back-up support though the G7 Application Managed Service.

### Module and sector coverage

G7 has experience of working across all sectors including Education, Commercial, Central Government, Local Government Health, Not-for-profit and Charities.

G7 covers the full suite of U4BW products; Financials, Logistics, Project, Research, Fixed Assets, Income Manager, HR and Payroll. As well as U4BW tools such as ARC (Agresso Report Creator) and AG16 processes.
